

Victoria City Hall:

**Step Into the
21st Century:
Ban the
Horse-
Drawn
Carriages**

Dear Mayor Fortin and Victoria City Councillors,

Life in the city is no life for a horse. "Busy city streets, constant exposure to exhaust fumes, hard pavement and varying extreme weather conditions are harmful", says Elizabeth Sinclair, DVM. "Horses are not well suited to life and work in the city." The horses are constantly in danger from traffic, and accidents occur with regularity according to local witnesses. Weak by-laws and regulations mean incidents are not tracked, and total number of incidents are unknown. **It's time the carriage trade ended.**

I'm sending this postcard in support of a **full ban on all horse-drawn vehicles** in Victoria. I'm also asking that you work with Friends of Animals to extend the City of Victoria ban on using animals for entertainment to include horses as well, and bring an end to this cruelty.

Sincerely,
